Art Unit: 1714

The amendment received 16 November 2004 has been made of record. Claims 1-3, 5-6, 8-12, 14-56, 58-59, 62-65, 67-70, 72-75, 77-80 and 82-96 are pending.

The rejection over Bors et al contained in the previous office action is withdrawn in view of applicants' amendment.

Claims 1-3, 5-6, 8-12 and 14-56, 58-59, 62-65, 67-70, 72-75, 77-80 and 82-96 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boege et al.

Boege et al disclose polymeric dispersions useful as coating compositions comprising fatty compounds in relative amounts such as claimed instantly. These fatty compounds are taught as derived from plant and animal sources and as including fatty acid esters wherein the alcohol moiety may be any of several glycols (see columns 3-4). While safflower and corn oil sources are not explicitly mentioned, it is the position of the examiner that these species are rendered obvious by the broad disclosure of plant sourced fatty compounds.

Therefore it would have been obvious to select applicants' claimed glycols as the esterifying alcohol for the fatty acid esters taught by the reference.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1714

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
